EXECUTIVE SUMMARY

Motivated and tech-driven Computer Science student with a strong interest in software development, AI, and problem-solving. Passionate about building practical applications and learning emerging technologies. Quick learner with hands-on project experience and adaptability to new technologies. Seeking opportunities to contribute, grow, and gain industry experience in the tech field.

EDUCATION

VSB Engineering College, Karur

2023-Till Present

B.E. - Computer Science and Engineering

CGPA: 8.25

St. Theresa's Girls Higher Secondary School, Karur

2020-2023

Higher Secondary Education - 85%

TECHNICAL SKILLS

- **Programming Languages** : Java, Python
 - **Web Technologies**: HTML, CSS, JavaScript
 - **Databases**: MySQL
 - **Concepts**: Object-Oriented Programming
-

PROJECTS

Bidirectional Communication: ISL and TEXT/Speech Converter Using 3D Animated Avatar

Tech Stack: Python, TensorFlow, OpenCV, Flask, HTML, CSS, JavaScript

- Built a bidirectional system that converts between ISL and Text/Speech using a 3D animated avatar for real-time inclusive communication
- Implemented Text-to-ISL and ISL-to-Text/Speech workflows using gesture recognition and language processing to support seamless two-way interaction.

Three-Level Authentication Luxury Web App

Tech Stack: Flask, JavaScript, HTML, CSS, SQL

- Created a multi-factor login platform featuring graphical image verification, pattern-based authentication, SHA-256 encrypted PIN validation with secure database storage.
 - Enhanced an elegant luxury-themed interface with responsive user interactions, session management, protected routing, and frontend-backend API integration.
-

INTERNSHIPS

Infosys Springboard – Virtual Internship 6.0

Project: ParkEase - Smart Parking Spot Finder

Tech Stack: Java

- Designed a Java-based Smart Parking Spot Finder to manage and allocate 50+ parking slots efficiently.
- Planned logic to track vehicle entry, exit, manage and track real-time parking space availability.

Java Intern – Training Trains Software Technologies

Dec 2024 – Jan 2025

- Utilized Core Java and object-oriented programming principles to build scalable and efficient application solutions.
 - Developed basic programs to practice logic building and problem solving.
-

CERTIFICATIONS

Google Cloud Computing Foundations - NPTEL

Cloud Computing Essentials - AWS Simulation

Java Foundations Certificate - Infosys

SOFT SKILLS

- Problem-Solving Ability
- Effective Communication
- Leadership
- Team Collaboration
