

JOHA SHEKIN SAROJ

Computer Science Student

✉ joharajkumar@gmail.com ☎ 9943636677 📍 Karur, Tamil Nadu, India

🌐 LinkedIn 🐙 GitHub 🔗 portfolio

Summary

Motivated Computer Science student with a strong foundation in full-stack development, specializing in Java, React, and Spring Boot. Passionate about building scalable and efficient applications, with hands-on experience in blockchain-based solutions. Seeking opportunities to contribute technical skills, solve real-world problems, and grow in a collaborative environment.

Professional Experience

Java Software Developer Intern, Infosys SpringBoard

- Developed a blockchain-based agricultural management platform using React and Spring Boot
- Processed over 100 simulated transactions to demonstrate system functionality.
- Improved supply chain transparency by 40% and reduced intermediary involvement by 25%

Education

B.E. Computer Science and Engineering, V.S.B Engineering College, Karur CGPA: 9.03	2023 – 2027 Karur, India
--	-----------------------------

Higher Secondary School Certificate, C.S.I Boys Higher Secondary School, Karur 91%	2022 – 2023 Karur, India
--	-----------------------------

Secondary School Leaving Certificate, <i>Rani Meiyammai Matric Higher Secondary School, Karur</i> 100%	2020 – 2021 Karur, India
---	-----------------------------

Projects

Student Management System, Full Stack Web Application

- React, Spring Boot, MongoDB, HTML, CSS, JavaScript
- Developed a full-stack application to manage student data efficiently.
- Designed a responsive and user-friendly interface using HTML, CSS, and JavaScript.
- Implemented RESTful APIs for seamless CRUD operations.
- Built a scalable backend architecture to enhance performance and reliability.

Campseek, Full Stack Web Application

- Created a campus lost-and-found platform with automated item matching and real-time WebSocket notifications.
- Integrated JWT authentication, role-based access control, and responsive dashboards for smooth item reporting and tracking.

FarmChainX – Direct Market Access for Farmers, Blockchain-Based Agricultural Supply Chain Platform

- Built a blockchain-based platform to improve transparency and traceability in the agricultural supply chain.
- Connected farmers, distributors, and consumers on a unified system.
- Enabled real-time tracking of produce and secure transactions.
- Reduced dependency on intermediaries and improved overall supply chain efficiency.

Certificates

- NPTEL: Programming in Java
- Oracle Academy: Database Programming with SQL
- Infosys SpringBoard: Java Full Stack Web Development
- Infosys SpringBoard: Java Foundation

Technical Skills

Programming Languages — Java, Python, C

Database — MySQL

Web Technologies — HTML5, CSS, JavaScript, React, Node.js, Spring Boot

Tools and Concept — Git, GitHub, Data Structures and Algorithms, Object-Oriented Programming

Soft Skills

- Adaptability
- Communication
- Problem Solving
- Leadership
- Quick Learning
